Software, hosting and consulting for libraries, archives and museums

We bring innovative **ideas** to **life**

About Us

Andornot is a well-respected Canadian provider of software and hosted solutions for libraries, archives, museums and other cultural and knowledge management organizations.

About Us

Our team of professional librarians and software developers has helped clients since 1995.

Core team:

Kathy Bryce
MCLIP
Founding Partner
kbryce@andornot.com
1.866.266.2525 x704

Peter Tyrrell
BA, MLIS
Partner
ptyrrell@andornot.com
1.866.266.2525 x706

Jonathan Jacobsen
BA, MLIS
Partner
jjacobsen@andornot.com
1.866.266.2525 x707

Ted Jardine
Senior Consultant
tjardine@andornot.com

Solutions

Andornot offers flexible, scaleable and above all, practical solutions for organizing, managing and searching information.

We offer ready-made solutions for:

- Libraries
- Archives and Museums
- Health Care and Patient Education
- Law Firms and Societies
- Municipalities
- Digitization
- Data Conversion

Software

We design, develop, install, configure and host software for searching and managing information such as:

- Our own Andornot Discovery Interface search engine
- Inmagic DB/TextWorks data management
- Access to Memory archival descriptions
- VuFind® Discovery Interface search engine
- CORAL electronic resource subscription management
- Umbraco and WordPress Website content management systems
- Omeka virtual exhibits
- FromThePage crowdsourced transcription and translation solution

Hosting

Andornot offers professionally managed hosting services from our Canadian data centre.

- We manage our own hosting environment and servers in a state-of-the-art co-location facility in Vancouver, Canada.
- We know each of you personally, as well as your data and applications.
- When you contact us with a question, you know who you're speaking with, we know you, and we get started immediately on solving problems.

Hosting

We host commercial and open-source software such as:

- Inmagic DB/TextWorks
- Access to Memory
- Search engines and discovery interfaces
- Virtual exhibits
